

CAGS Fellowship for the International Ophthalmology Conference and the 1st Muscat Eye Genetics Course

The Centre for Arab Genomic Studies (CAGS) is offering fellowships for young professionals to attend the International Ophthalmology Conference and the 1st Muscat Eye Genetics Course. The program is run by the Sultan Qaboos University in collaboration with the European School of Genetic Medicine (ESGM). Details can be found [here](#). The fellowship covers the registration fee for both the conference and the course and is open to students and young professionals in the field from the Arab World.

Applicants for the fellowship need to carry out the following procedures:

1. Send a short CV to cags@emirates.net.ae
2. Send a short write-up, not exceeding 300 words, on how you think this conference could be beneficial for you, to cags@emirates.net.ae.
3. Find the answer to the question below. Post the answer as a comment to the post from 12th November, 2018 on either the Facebook, Twitter, or LinkedIn pages of CAGS. The question is:

How many disorders of the eye and adnexa does the CTGA Database hold?

Deadline for applications is 13th of December, 2018. Participants selected for the fellowship will be announced on our [Facebook](#), [Twitter](#), and [LinkedIn](#) pages.
