

CAGS Fellowship for the 10th Dubai International Conference for Medical Sciences

The Centre for Arab Genomic Studies (CAGS) is offering fellowships for young professionals to attend the 10th Dubai International Conference for Medical Sciences, organized by the **Sheikh Hamdan Bin Rashid Al Maktoum Award for Medical Sciences**. The theme of the conference in this term is Musculoskeletal Disorders, and includes topics in **Rheumatology, Orthopedics & Orthopedic Mechanics**. This conference will showcase research excellence through presentations by the winners of the Award and by other eminent and equally prominent invited speakers. Details can be found [here](#). The fellowship covers the registration fee for the conference as well as a special invite for the Sheikh Hamdan Medical Award ceremony on the 01st of December. The fellowship is open to medical students, nurses, clinicians and researchers from the UAE and the Gulf region.

Applicants for the fellowship need to carry out the following procedures:

1. Send a short CV to cags@emirates.net.ae
2. Send a short write-up, not exceeding 300 words, on how you think this conference could be beneficial for you, to cags@emirates.net.ae.
3. Find the answer to the question below. Post the answer as a comment to either one of the posts on Facebook, Twitter, or LinkedIn. The question is:

In the CTGA Database, how many literature references does the entry for Duchenne Muscular Dystrophy hold?

Deadline for applications is 1st of December, 2018. Winners will be announced on our [Facebook](#), [Twitter](#), or [LinkedIn](#) pages.
